Storage Buildings. Four large gable-roofed storage buildings and two small support buildings are located within the site, which measures 1,850 by 1,500 feet (Figures 2 and 3). Each storage building measures [redacted] and has two gable-roofed entryways which measure [redacted] Light earth scarring at the ends of these buildings suggests the presence of an additional entrance. An object, which may be a lightning rod, is located midway in front of each storage building. A small open storage area is visible in front of the storage building in the southwest corner of the site.

the entrance at the fourth corner; these two buildings and a third building, probably a barracks, are outside the double fence and are enclosed by a separate fence.

Housing and Administration. A housing and administration area is located approximately 1,500 feet northwest of the storage site. This area contains two barracks, three buildings which are possible officers quarters or dependents' housing, a possible messhall, a possible administration building, and a vehicle park. At the time of [redacted] photography the vehicle park contained two vehicles; a third vehicle was visible approaching the parking area. Numerous small buildings, some partially concealed by trees, are located throughout the area. A guard post is located at the entrance to this area and a tactical trench and earth scarring are visible at the southwest corner of this area. 25X1D
